American Safety Paper
Manufacturing Company of N. Y.

Capital $500,000.

A NICHOLAS, President Office 70 Wall st

A Perfect Security against all manner of Fraud or Counterfeiting on Paper—To Prevent Photographs and Anastatic Counterfeits Erasures, Transfers or Alterations

HAVING purchased the Patent for the exclusive right to manufacture and sell the Chemical Paper in America invented and patented in England by HENRY GLYNN, a celebrated chemist and officer in the British army, it is hardly necessary to say that the Paper is recommended by Mr Kent Assayer of the U S Mint Mr Lyman of the New York Clearing House and Meade Brothers, extensive and skillful photographers 233 Broadway, N Y The latter say that no imitation can be made on a check or bank note printed on the Safety Paper Below is our list of prices

Bank Checks—35 cts per lb
Bank Bills—$18 for 1000 sheets
Bills of Exchange—$25 for 1000 sheets
Promissory Notes—40 cts per lb
Sight and Time Drafts—$25 for 1000 sheets
Insurance Policies—40 cts per lb
Railroad Stocks and Bonds—40 cts per lb
Bank and State Stocks—40 cts per lb
Bonds and Mortgages—40 cts per lb
Wills and Deeds—40 cts per lb

For wrapping Silks and other fine articles it is excellent as it prevents moths 40 cts a lb

For Indentures and Agreements 40 cts a lb

All State and County Records should always be printed or written on this paper as the chemicals inserted in the pulp not only prevents erasure or transfer but makes it lasting as time

For Southern climates it is excellent and much superior to any other, as the moistness of the climate does not destroy it,—the properties inserted in the pulp being a preventive In all the Southern States Cuba the West Indies and the Central American States no public records can be kept over 20 years written on the ordinary paper while the oils and other chemicals inserted in this paper makes it indestructible by the ravages of time It is also proof against moths, rats and other vermin, which feast on and destroy all other paper now in use

The Company have now in operation Mills in Morris County N J, of about 300 horse power, and are able to fill all orders for Paper at the shortest notice

All orders for the Paper must be addressed to A NICHOLAS President of the Company, No 70 Wall street New York

The Whig Party.

The Bangor Democrat or Union boasts of its ability to draw the Straight Whig party into the Democratic fold as follows

It is gratifying to us that the former patrons of the Journal with almost *entire unanimity*, continue their liberal support to The Democrat and The Union. At the time of the union of the two papers the daily and weekly circulation of The Journal was upwards of 1700. Of this large number of subscribers to each one of whom the Democrat or Union was sent, scarcely a dozen have refused the paper on any account. We hence infer that the merging of the two papers meets the hearty approval of the former Straight Whig organization in this State. And why should it not? There is now certainly no other party than the Democratic with which National men can sympathize

That there is no whig party to-day, will be conceded on all hands, but that the members of the late whig party are all so ready to enter into the loving embrace of the present self-style Democratic party, will not perhaps, be so readily believed

It may be true that the readers of the Journal with almost *entire unanimity* continue their liberal support to the *Democrat*—but it may not be in part be accounted for by the fact that the readers of the Journal, with almost *entire unanimity* belonged, at the time of its union to the democratic party and that the number of gentlemen claiming to be whigs numbered among its supporters were so very small as hardly to be missed. Let us look a little at the facts

The whole number of votes thrown in this city for the whig candidate for Gov in 1855 was only one hundred and sixty eight, and the whole number of scattering votes thrown at the Presidential election in November, was exactly fifty three—thus leaving the whole number of Straight Whigs in the city of Bangor at that time at one hundred and sixty eight *or fifty three* whichever count the Union sees fit to accept

The last part of the month of September the publisher of the Journal returned to the Post office in this city, *under oath* the number of daily subscribers in the *city of Bangor* at that time—and the number sworn to was *six hundred and ninety five*. Now subtract from that amount the whole number of straight whigs in Bangor—thus allowing that every whig voter took the Journal—and it leaves the number of Democratic patrons of the Journal *five hundred and forty two* or in other words twelve thirteenths of the patrons of the Journal, at that time belonged to the Democratic party. Is not this a good reason why the almost *entire unanimity*, they should still remain patrons of the Journal after it had openly commenced the advocacy of the principles and party it had so long secretly favored and supported

But assuming that the straight whigs have not withdrawn their patronage from the Journal, in all to the amount of *one dozen* does it of necessity follow that they are to be transferred, bag and baggage into the Democratic party, like a cargo of slaves, without a voice in the matter. We think not

Many of the members of the whig party are now and always have been, uncompromising opponents of the extension of slavery over territory now free, and these men will not on any account unite themselves with the party which sustains slavery, or are the apologists for it. They have fought for the principle of freedom and for free territory from the first, and they will not now resign it because the whig party as an organization has failed them, but they will be found sooner or later fighting under the banner of freedom, and *with* the party and *for* the party—let it be called by what name it may be—that resists the encroachments of the slave power and uses its energies and its strength for the promotion of freedom, and the perpetuity of our free institutions

So long as there was any hope of the whig organizations being able to bring about this result these men were its supporters, and now when that has failed them, and they see—what others have already seen—that it can only be continued, except to build up the party which is now in the interest of the slave power, and favorable to that patriarchal institution—will they be found clinging to it? No they will rather seek some party whose principles in some measure assimilate with theirs, and who are striving to bring about the same results for which they have labored for years.

As a party the democrats have no sympathy with the whigs. It is true they have been forced, in some few cases, to assume a show of generosity in the gifts of public offices—as was the case in 1855 in the dispensation of State patronage. But this was done only when the Straight Whig party held a balance of power which bound the democratic party hand and foot, and when, without them, the democratic party was powerless. They were then, it is true, very magnanimous and generous, and very kindly allowed the whigs a share of the offices, *because*, without their assistance they could get nothing for themselves. Was the democratic party equally generous when the National patronage was to be dispensed? Did they then show such a strong love for their straight whig brother? Let us see

When only *one* Whig in the State of Maine was rewarded with a Custom House appointment, what was the result? Why, a howl of disappointment arose from the whole district, and indignation meetings were held in Rockland, and all sorts of abuse heaped upon the Administration and upon the whig who was the recipient of the office. Did that look like a sympathy with the whig party?

When the whole whig strength of the Kennebec valley united in petitioning the Administration to retain in the Bath Custom House, Mr Bodfish a gentleman who was then and always had been a democrat and who had done his country good service upon the plains of Mexico, was their request heeded. No—the petition and petitioners were thrown shabbily aside, and a democrat of the Appleton and Clifford stripe received the appointment

The democratic party had received from the whigs all the assistance they had any reason to hope for and they were thrown aside as useless

There are now but two parties. One the Republican party—broad and national in its views—striving to preserve the Union in its original purity, and to keep the government upon the same track upon which the founders started it and in the same course marked out by those patriots, Washington, Jefferson, and others, who have long since passed away but who have left their examples and their memories as beacon stars to serve to guide us safely thro this crisis of our country. And the other the democratic party—narrow and sectional—with no voice save the echo of the slave driver's whip, whose leaders are ready at the bid of the South to let slavery extend its withering blight over every part of our glorious Union now free, and which has heretofore been solemnly consecrated to freedom, regardless of its effect upon free labor and our free institutions

There are now but these two parties, and it remains to be seen whether this transfer to democracy meets the hearty approval of the former Straight Whig organization of Maine. We have no doubt that the vote in September will show that the balance of the whig party have gone where the majority long since went—into a party whose influence and vote will be thrown upon the side of freedom

JAMES B CLAY AND HIS CONSTITUENTS. The Washington States thinks it is impudent for people at a distance to tell what Henry Clay would say and do if he were now living, when compared with the opinion of "the son of his loins and the people around his hearth stone, and in his old district, who so long honored and sustained him." To this expression of views the New York Tribune replies

"Now it is due to truth to say that Mr Clay's own county, and the district which his father so long and worthily represented voted *against* James B Clay who was elected by the votes of counties recently added to the district, and which were almost uniformly hostile to the Great Commoner. Probably seven eighths of the voters for Henry Clay in '44 now voted against James B Clay, who was supported mainly by his father's deadly and life long opponents. Looking over an account of the Barbecue recently given by the younger Clay in celebration of his own triumph, we were strongly reminded of that bitter description of the first Alexander's coronation as Emperor of Russia, which imported that 'the assassins of his grandfather were in front, those of his father on each side while those who were to be his own assassins brought up the rear.' Mr Clay must have learned and unlearned a great deal during the last five years to have rendered him at home in 'such a crowd.'"

SMALL BUSINESS.—A Kansas correspondent of the St Louis Democrat says

"Walker don't like the New York Tribune. Neither, it appears, does our respected Jeemes, the bachelor of the White House. There is a little place—or town site—called Greeley, in the southern part of Kansas. The proprietors applied for a post office. The request was granted *provided the name of it be changed to Walker*. The alteration was made. We have a Walker post office, therefore, in the town of Greeley! Don't that 'smell pretty loud' of the millennium

MEXICO AND A UNITED STATES OFFICER.—A gentleman at Mazatlan gives the details of a difficulty of a serious character between Mr Smith, U S Vice Consul at that place, and the local authorities. It appears that the authorities of Mazatlan recently sold a vessel bearing the American flag, on an unsubstantial claim, and with the sanction of a person claiming to be owner, whose name does not appear on the vessel's papers as such. The Vice Consul entered his protest, and for this act was thrown into jail, in default of paying a fine for contempt, alleged by the Court to have been committed. He was afterwards released on the order of Gen Yanez, but struck his flag, and refused to have any further transactions with the authorities in an official capacity until a due apology be made. In the meantime a statement of the case is on its way to Washington. The writer says, "the incident has attracted general attention, and may be of so grave a nature as to endanger the amicable relations existing between this Republic and that of the United States, unless ample reparation is made

Mr Banks paid his second visit to the U S Armory at Springfield on Thursday, the first time he went was to get work there as a mechanic, in which he failed. He has since worked for the government in a higher capacity

Dr E M Field, Coroner. It appeared in evidence that he had been living rather freely of late. A post mortem examination of the body showed that he was not drowned. MAN PICKED UP AT SEA.—The Portland Advertiser says that Capt Dudley B Davis, of the sch Bloomer, which arrived at that port Sunday morning, from Salem, passed a pilot boat, with her sails flapping in the wind, as though no person was on board of her. He hailed her, but got no answer. A short time after he heard a voice in the water which proved to be the captain of the pilot boat, Mr Michael Stevens. He was on board his boat, the America of Newburyport, when a sudden movement of the boom knocked him overboard. The crew were all asleep below, and did not hear him, and he was left at the mercy of the waves. He was in the water an hour and a half, and probably could have survived but a few moments longer, as he was nearly exhausted

FOOT RACE.—At the Bangor Trotting Park, yesterday afternoon, a foot race of ten miles came off between John Stetson and Thomas Woods—America vs England. The ten miles was run in one hour and six minutes—Woods being the winner by a short distance. We understand there were several *side shows*, in the way of scrub races, which were particularly interesting

RAILROAD ACCIDENT.—Mr Boynton, one of the brakemen on the Kennebec and Portland Railroad by some accident, fell from the cars on Saturday last, and had his arm so badly crushed by a portion of the train running over it, as to require amputation. The accident occurred between Morrill's Corner and Cumberland. The young man was in the act of saluting some friends near the track at the moment of his fall.—*Argus.*

ACCIDENT AT PEAK'S ISLAND.—Rev J C Fletcher, the well known lecturer and author, met with a narrow escape from serious injury, at Peak's Island, on Friday. While bathing near the rugged shore of the southern end of the Island, he was thrown with great force by the surf against the rocks, and was only saved from drowning or fatal injury by the timely assistance of an English gentleman who happened in the vicinity

A fireman on the New York Central Railroad asked the superintendent for a pass, which he declined to give, saying, "The company employ you and pay you so much for your services, and there our trade ends. If you were at work for a farmer for a dollar a day, and wanted to go to Saratoga, would you expect him to hitch up his team and take you there for nothing?" The fireman answered—"No, sir, but if he had his team hitched up and was going directly to Saratoga, I should think he was a hog if he didn't let me ride."

SOUTH SIDE VIEW OF THE MISSOURI ELECTION. The Richmond *South*, which aspires to lead in the pro-slavery vanguard, has some significant remarks upon the presumed election of Rollins in Missouri, under the title of "The beginning of the End." It says

"We regard the election of Rollins to be the most serious blow which has been given to the southern cause since the formation of the Federal Union. The question of the perpetuity of African slavery in the State of Missouri has been thereby determined. It is now no longer debateable. A considerable majority of the people are violently opposed to the system, and it cannot long survive the terrible shock of an adverse public sentiment. There is no danger of immediate unconditional abolition. That is decided to be impracticable. But that a plan of gradual emancipation will be proposed and adopted by the next legislature, there is little room to doubt. To the other States of the South the effect in either case is the same

The *South* then goes on to say that in the present condition of things in the slaveholding States, "not to advance is to recede." They have already lost their equality of political power, and their influence in the Senate is fast diminishing—a state of things against which they have for some time been consciously struggling

"Now, however," says the writer, "an entirely new phase is given to the future of southern development. Missouri surrendered to the anti-slavery power, the question of the further extension of our system in the present limits of the Union, is absorbed in anxiety for the safety of the institution in many of the States where it now holds a precarious existence. The tide of southern advancement will have commenced to ebb, Kentucky will most probably soon follow in the wake of Missouri, and Maryland and Delaware will not be far behind. The anticipated revolution does not end here. Virginia, too, is claimed as an easy prey by the leaders of this abolition movement under the guise of free labor colonization

But the object of the *South* seems to be to draw the attention of Virginia to Eli Thayer's scheme. It declares this to be only a repetition of the very same means by which Missouri has become apostate towards the domestic institution of the South—means in both cases *designedly* employed to accomplish that object. No man of sagacity, it says, can fail to see what all this will amount to. Let Virginia be open to immigrants, with the understanding that "she invites them to come," and "our land, continues the chivalric writer, "will be filled with vagabonds and paupers of every description—the filthy scum of Northern society, the competition will commence in fearful earnest—accessions to the *free labor* cause will be constantly pouring in, and soon Virginia will present the same spectacle that is now witnessed in Missouri." A gloomy picture, truly! He then turns his batteries upon some of his cotemporaries for favoring this scheme, and charges them with imitating the course of certain Missouri journals, which were all for immigration at first, and for that only, but which finally, when they thought they had got the strength, threw off the mask and came out for emancipation.—*Boston Journal*

BRESLIN, THE OHIO DEFAULTER. The report of the committee entrusted with the investigation of the robberies perpetuated upon the Ohio treasury is published. It is an elaborate exposition of the whole subject, and conclusively fastens the guilt of official robbery upon Breslin. The proof is not confined to Gibson's testimony, which is justly rejected as unreliable where it is not corroborated from other sources. Other testimony fastens the brand of "defaulter" upon Breslin's forehead.—Among this testimony are the details of his speculations—the record of the expenditure of vast sums of money in Banks and Railroads—his own confession of his guilt, and his flight from the country. In regard to confessions, he said to Col Schouler "that he could not make the disclosure without involving the character of others and the happiness of their families, and that he would not do it." He pronounced the attacks of the press upon Mr Gibson unjust and said that "his (Mr G's) statement in regard to the defalcation were true," "that if Mr Gibson was to blame one part in a hundred in regard to the matter, I am to blame ninety nine parts in a hundred"

In regard to Gibson, the Committee make no attempt to shield or spare him. He knew of this defalcation when he came in as Breslin's successor. But he was his brother in law, and desired to conceal it, for the reason, as he now states, that he believed Breslin would, by this concealment, be the better able to make his account good. Accordingly, he kept his accounts as if no defalcation existed and no person, by a mere casual examination of those books, could have detected the deficit. Indeed, in a formal report, Gibson made out a statement which showed the Treasury to be in possession of all the money which Breslin had stolen—over half a million—the amount which should have been in the Treasury, and yet a few days before Breslin's term expired, (with this half million apparently in his hands) he hadn't money enough to pay a $30,000 draft upon the State. The holder had to be satisfied with a portion of the amount

The conclusion from this elaborate search is irresistible that Breslin robbed the treasury of Ohio of the sum missing—over $74,000. This large sum has been mostly squandered in speculations, and in loans to political friends, whose names he refuses to give. He is now said to be enjoying himself at London, Canada West. He was seen there at a picnic. Notwithstanding his immense defalcations, he is reported to be scant of funds

The Cincinnati Gazette learns that on the 27th of July, Gov Chase wrote to Lewis Cass, Secretary of State, soliciting that the General Government address the authorities of Canada for the extradition, under the treaty, of John G Breslin, indicted for embezzlement of the public moneys of the State of Ohio, to which on the 3d day of August, Gen Cass replied that Mr Breslin could not be returned under the treaty. Gov Chase will again submit the subject to the Secretary for reconsideration

SLAVERY IN ILLINOIS ADVOCATED. The Mattoon Gazette, a Douglas democratic journal in Southern Illinois, advocates the establishment of slavery in that State. It declares that the question comes squarely up to every business man "Which would you rather do, make slaves of your family, or provide a comfortable home for some of the enslaved African race?" Accordingly, it hopes "the day of practical benevolence" will soon usher in the blessings of slavery. This is an eminently "Democratic" idea—to save your family from work, buy slaves. The "Geo-thermal line" which will include the slavery established on this principle, would turn Massachusetts into a slave State, for we fear that we, too, have some few families that are too indolent or genteel to work more than they are absolutely obliged to. But this is a fair specimen of the democratic pro slavery arguments of the present day.—*Boston Journal*

Some time since a small party of negroes from Louisiana found their way to Mexico, and settled to the south of Vera Cruz on the Popoloapam. They turned their attention to the cultivation of Indian corn, and were so successful that they wrote to their friends in New Orleans, telling them of the great advantages held out to them in Mexico. Their chances for making money were there much greater than in the United States, and what was to be prized still more by the black, they were not there subjected to the same inequality from caste as they were in their old homes. The representations of these pioneers have been successful in inducing a large number to emigrate.

STABBING AT BLACKWELL'S ISLAND.—The New York Commercial says that Mr Richard Brainard, one of the workhouse keepers on Blackwell's Island, was dangerously stabbed on Thursday, by a vagrant prisoner named James Collins. Collins, who is a sailor, a strong, athletic man, refused to go to work, when Brainard laid hands on him to force him to his post. Collins resisted, dragged Brainard into the cell where he had slept, beat him, and in the struggle stabbed him very severely in the breast, arm and shoulder. Another keeper came to Mr Brainard's assistance, and by means of a club brought the culprit to order. He was subsequently chained and sent to the Tombs

THE YELLOW FEVER IN THE WEST INDIES.—Quite a number of vessels arrived at New York quarantine on Thursday. They report the fever in the West Indies less violent than it was. When a strong sea breeze prevails it abates, and vice versa. The general impression in the Island is, that yellow fever can be carried in a person's clothing as readily as small pox. Captains are to be met with who have had the fever two or three times, they say, and escaped. The report that the yellow fever was at Norfolk, Va, is denied by the Virginia papers

FRAUDS IN THE WINE TRADE.—Not an uninteresting feature of the latest foreign news is the announcement that extensive frauds in the wine trade have been discovered at Oporto. The discovery caused considerable sensation, and the government seized a quantity of the deceptive mixture, brought from England to Oporto, and intended to be taken back as veritable Port wine. About 3000 pipes of this mixture was also found in London, ready for transportation and conversion into wine, and the chemists discover that it consists of bad alcohol, molasses and the essence of tar

American & Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

(Late Agent of U S Patent Office Washington, under the Act of 1837)

No. 76 State Street, opposite Kilby St.,
BOSTON

AFTER an extensive practice of upwards of twenty years continues to secure Patents in the United States, also, in Great Britain, France, and other foreign countries Caveats Specifications Assignments, and all Papers or Drawings for Patents executed on liberal terms and with despatch Researches made into American or Foreign works to determine the validity or utility of Patents or Inventions, and legal or other advice rendered in all matters touching the same Copies of the claims of any Patent furnished by remitting One Dollar Assignments recorded at Washington

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by if not immeasurably superior to any which can be offered them elsewhere The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate—The immense practice of the subscriber during twenty years past has enabled him to accumulate a vast collection of specifications and official decisions relative to patents These besides his extensive library of legal and mechanical works and full accounts of patents granted in the United States and Europe render him able beyond question, to offer superior facilities for obtaining patents

All necessity of a journey to Washington, to procure a Patent, and the usual great delay there, are here saved inventors

Testimonials

"During the time I occupied the office of Commissioner of Patents R H EDDY Esq of Boston did business at the Patent Office as Solicitor for procuring Patents—There were few if any persons acting in that capacity who had so much business before the Patent Office and there were none who conducted it with more skill, fidelity and success I regard Mr Eddy as one of the best informed and most capable Patent Solicitors in the United States and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office

EDMUND BURKE,
Late Commissioner of Patents

[From the present Commissioner]

"August 17 1855—During the time I have held the office of Commissioner of Patents R H Eddy Esq of Boston has been extensively engaged in the transaction of business with the Office as a Solicitor He is thoroughly acquainted with the law and the rules of practice of the Office I regard him as one of the most capable and successful practitioners with whom I have had official intercourse

A MEDICINE THAT NEVER DEBILITATES.

DR. SANFORD'S

INVIGORATOR, OR LIVER REMEDY!

HAS ALL THE GOOD QUALITIES OF A Purgative Medicine, answering the purposes of any cathartic without the debilitating effects experienced from most purgatives It acts slowly and gently, but surely, moving the bowels to carry off all the secreted matter, at the same time stimulating the *Liver* to a proper performance of its functions.

The Invigorator cures Sick Headache. Take one or two teaspoonful at the first attack and it will soon disappear For an overloaded stomach or when food rises or sours take the Invigorator after eating, and it will not prove disagreeable or oppressive For Heartburn Palpitation, or Difficult breathing take a tea spoonful once or twice daily For Loss of Appetite Languor, or Listlessness the medicine is invaluable It will restore the appetite and make the food digest well Nightmare, take a a teaspoonful on retiring and the demons of dream land will all be fairies After eating a hearty dinner, take a dose of Invigorator and it will relieve all oppression or fullness The Invigorator is a Liver Remedy of unequalled virtue acting directly on that organ curing Dyspepsia, Jaundice Bilious Attacks Dysentery Piles Worms, and all Female Obstructions, for which it has no equal

We know there is nothing now before the American public prepared with such skill by a scientific man particularly for diseases of the Liver as Dr Sanford's Invigorator or Liver Remedy It has attained a reputation second to no other article in the world simply because it rests on its own merit The invariable trial that it is all that its proprietors claim it to be If any of our readers are suffering from any such diseases as are described in Dr Sanford's advertisement we know of no remedy that will so surely cure them as the Invigorator

There has lately been brought to our notice a medicine that seems to possess wonderful curative and healing properties in Diseases of the Liver Stomach and Digestive organs It comes to us with so many testimonials in its favor that we have noted its effects in some of the worst cases of chronic debility caused by deranged Liver, and in every instance the effect was to relieve or give a permanent cure Dr Sanford's Liver Invigorator is what we refer to, We always have been credulous as to cures by patent medicines but we are convinced that this medicine for family use is not overrated by the host of recommendations it has Our advice is for all troubled with Indigestion Debility or Bowel Complaints, to get a bottle and try it, our word for it relief will be experienced

Blessings to the Invalid who use Dr Sanford's Invigorator for it will relieve them of their pains as soon as it is taken into their stomach Pain and misery cannot exist where the Invigorator is used for it will surely drive them away, as daylight will banish darkness—if there can be any doubt to those who try it, for it carries conviction with every dose taken Another evidence is the thousands of certificates from those who use it, or have been cured by it Try one bottle—if it does not benefit then we are mistaken

Dr. Wesley Grindle's

CELEBRATED

MAGIC COMPOUND,

—THE GREAT—

Remedy for Pulmonary Consumption.

Also, an effectual cure for Scrofula Dyspepsia, Obstinate Cutaneous Eruptions, Chronic Rheumatism, Bilious Disorders General Debility and all diseases depending on an impure state of the blood

THIS WONDERFUL REMEDY has done more to alleviate human suffering than all other means put together It has the greatest sale of any medicine in the world for *Pulmonary Complaints*, from Maine to the most retired dwellings of Oregon, or wherever Consumption is known, it finds its way carrying health and joy into thousands of families The most eminent physicians have been forced to acknowledge that it *does* cure consumption, and they now use it in their practice as a standard and sure remedy

There is no remedy equal to it in building up a system that under the influence of various diseases hardships or exposures has run down or lost its natural tone and vigor Its great secret is in its power to reach the blood correct the vitiated fluids, and arrest the deposit of tubercle in the lungs and it is as *safe* as it is *certain* in its action

Some poor sufferer full of anxiety and doubt in regard to what we say may ask Can your medicine restore a portion of lung that disease has entirely destroyed leaving a cavity? We answer, certainly not, neither is this necessary in order to effect a perfect cure If the treatment be commenced in season but little or no portion of the lung is lost It is necessary only to *arrest* the disease, and when this is done, the concrete substance deposited in the tissues of the lung, technically known as tubercle, becomes absorbed leaving perhaps a little calcareous substance which is quite harmless and the patient finds himself in possession of whole lungs and sound health But suppose the disease is not arrested at this early stage The softened tubercle produces irritation, the irritation brings on inflammation of that part of the lung the inflammation leads to ulceration, and the destruction of a portion of the tissue is the result a cavity is formed which enlarges and does its work of death unless the deposit of tubercle is arrested Now does your remedy effect a cure? *Most assuredly it does* As soon as the disease is arrested the hurtful matter is absorbed or expectorated and nature either furnishes the cavity with a lining membrane or what is more common, where it is of large size its walls fall together and heal up, leaving a scar and the remaining portion of the respiratory apparatus true to a law running through the whole physical economy becomes somewhat enlarged, takes on increased action, and suitably compensates for that which has been lost

LINCOLN'S

WATER PROOF BLACKING,

AND LEATHER PRESERVATIVE.

Keep your Feet dry and you will seldom need a Physician

IS it not a truth that when the feet are often wet, it is one of the greatest causes of colds and consumption? It is a truth that when leather is often wet and dried, it soon becomes hard, stiff, and cracks, but when it is water proof this is remedied By the application of this preservative, it remains soft and entirely impervious to water

After being engaged for 25 years in the manufacture of Leather in all its branches, and being often troubled with wet feet myself, I was led to experimenting on different compositions, and found it easy to make it water proof, but at the same time extremely injurious to the leather At last by a chemical process, I discovered a preparation which perfectly harmonizes with the astringent properties with which leather is tanned It will not only make leather water proof, but it likewise softens the leather and it will

Positively wear twice as long.

I have now used it for three years and a large part of that time have worked in a wet Tannery, with my boots constantly in water, and have not had my feet wet during that time I can therefore in all confidence, recommend it to the public as the best article in the market
